# About us and what we do:

---

## Sustainability team, EMS, and our Strategy:

- Your Sustainability Team is made up of professionals with a range of disciplines, from biodiversity to carbon reduction.
- The University implements an Environmental Management System, which is certified to the ISO14001 standard.
- We also align our work to the UN Sustainable Development Goals.

# University impacts

---

Each year:

- We consume ~£13m of energy, emit tens of thousands T CO<sub>2</sub>
- We produce >1000 T of various waste and recycling
- We must carefully manage our impact on the local environment including the SSSI, Crymlyn Burrows

# Sustainability & Climate Emergency Strategy

---

In order to minimise our impacts, we have a thorough Strategy which sets out commitments in four themes:

- Climate Emergency
- Our Working Environment
- Our Natural Environment
- Our Travel

# Sustainability projects

---

## Where are we along our path to zero journey?

- 1800 new roof solar panels installed across both campuses
- 3 new novel horizontal wind turbines on the roof of the new CISM building
- Upgraded lighting systems to LED
- Staff and student carbon literacy training

# LEAF

---

- We work with a growing number of labs on campus to help improve their sustainability!
- Laboratory Efficiency Assessment Framework (LEAF) is an online tool that has criteria to fulfil which helps labs become more sustainable and achieve awards when they do.

# Get involved

- There are lots of ways to get involved with sustainability!
  - Global Citizen Award- HEAR accredited
  - SWell
  - Beach cleans & conservation work
  - Fairtrade
